

### AVOID CONFLICTS WITH BEARS!

- Store garbage in a bear proof enclosure
- Set garbage out only on collection day, after 6am
- Feed pets indoors and keep pet food inside
- Clean BBQ grills and store inside
- Hang bird feeders between trees, not on your deck
- Compost lawn clippings and leaves, not food waste

**We must adapt our own behavior. The bears have nowhere else to go.**

## LANDSCAPING THIS SUMMER?

The City Public Works Department would like to remind all homeowners to avoid placing large landscape materials such as berms, trees, and boulders within 10-15 feet of the street driving surface. This right-of-way area, which is typically 30 feet from the centerline of street, is used for snow storage and utility line installation. Landscape materials may damage street maintenance equipment or have to be removed because of utility work in the area.

The City will not be responsible for damage to landscaping materials or irrigation systems, etc. that are placed within any public right-of-way.

Your cooperation now will help the snowplow crews provide timely and cost effective snow removal service in the future, and will help utility companies avoid damage to your landscaping during excavation procedures.

The City welcomes your comments, requests and suggestions.
