

Fetcher Park Road Closed for Dust Abatement Treatment

7/15 Road Closure Anticipated To Last 8 To 10 Hours Depending Upon Weather

STEAMBOAT SPRINGS, COLORADO-July 7, 2022-One of the few dirt roads within the city, Fetcher Park Road, will close for dust mitigation treatment starting at approximately 8am, Friday, July 15. The road closure is anticipated to last between 8 to 10 hours depending upon weather and should be reopened for the weekend.

During road closure, there is no parking in the area and all vehicles must be off the road and adjoining parking area. Vehicles left after the closure may be towed. The park and public restroom will remain accessible; however, pedestrian and bike access will only be available from the Yampa River Core Trail.

Fetcher Park Road provides access to the city park, Fetcher Park, including the pond, picnic area and public restrooms. In addition, many people use this area to enter the Yampa River for tubing, kayaking, paddle boarding and fishing.

Crews will apply a treatment to reduce the airborne dust which is a result of increased traffic in the area. The work will take place during the early morning hours and the road will be allowed to dry, which enhances its effectiveness and duration. Please refrain from using the road until Saturday morning.

Additional access to the Yampa River is available through River Creek Park, Rotary Park, and Emerald Park.
